38 426 10x42

Introducing the NEW Frontier ED X Gen 2 binoculars from Hawke Optics – the next generation of our most renowned binoculars. Designed for those who want top-tier performance and impeccable craftsmanship, the Frontier ED X delivers impressive clarity and colour, wherever your adventures take you.

With rare-earth Lanthanum optical elements, Extra-low Dispersion (ED) glass, Fully Multi-Coated optics, and Dielectric prism mirror coatings, you'll experience bright, sharp images and exceptional light transmission. Additional field flattening lenses in the 42mm models ensure edge-to-edge sharpness and prevent image blur at the periphery.

The durable magnesium alloy chassis keeps them lightweight and built to microscopic tolerances for optimal performance in your hand and in the field.

These binoculars also feature replaceable twist-up eyecups, a waterproof and fog-proof build, and come supplied with a premium case, neck strap and lens covers.

Whether you're trekking through the mountains, or observing from a hide on the coastline, the Frontier ED X binoculars deliver immaculate images and are ready for the challenge.

Extra-Low Dispersion (ED) glass / Wide-angle optics / Lanthanum ocular glass / Dielectric coated, phase-corrected BAK-4 roof prisms / Fully multi-coated optical system / Magnesium alloy chassis / Water repellent objective lens coatings / Replaceable twist-up eyecups / 1/4 inch - 20 UNC tripod mounting thread
